ZODIACHS

Solid State Coder

Designed and developed in Nottinghamshire, UK, the ZodiacHS thermal transfer coder continues to be a global leader in its class.

Using innovative technology and software, the printer delivers versatile, reliable and accurate coding for flexible packaging. The ICE brand forms part of the largest coding company in the world, yet offers an experienced, personal approach.

1200M RIBBON

Up to 9,000 more prints per ribbon and over 20 fewer line stops per year!*

*based on comparison to competitive 1,100m ribbon length; ZodiacHS productivity benefits will be even greater versus shorter competitive ribbon

Specialists
in overprinting
on a range
of flexible
packaging.

Vertical form, fill and seal machines:

- › Snacks
- › Nuts/grains
- › Confectionary
- › Powders
- › Hardware
- › Frozen food
- › Vegetables

The industry standard in thermal transfer coding

Solid State ribbon drive: Reliability with the lowest cost of ownership

- › Simplest ribbon cassette design in the industry.
- › 1200m ribbon capacity.
- › Consistent ribbon tension.
- › Effortless ribbon changeover.
- › No clutch, brakes or wear parts therefore minimal maintenance and no degradation of performance for the whole life of the coder.
- › Several unique ribbon save modes ensure efficient use of consumables, with typically less than 0.5mm of waste ribbon between prints.

Maximum printing flexibility in one machine

- › One printer for intermittent or continuous mode, satisfying all applications.
- › Left or right hand operation.
- › Performs at both very high and very low speed operation using precise ribbon tension control.
- › Easy washdown with the IP65-rated water tight printing cassette cover.
- › Custom made brackets to fit any production line.

Intelligent and intuitive interface

- › Easy to learn, quick and error free icon based controls and wysiwyg image display with the CLARiTY™ coder operating system.
- › On-board application qualification and technical diagnostics ensure precise set-up and maximum uptime.
- › Printer cloning, master/slave mode and several methods of connectivity ensure security of data being coded.

Horizontal form, fill and seal machines:

- › Bakery products (bread, biscuits, cakes)
- › Confectionary

Thermoform and tray-sealing machines:

- › Berry fruits
- › Seafood
- › Cheese
- › Processed meats
- › Red meats
- › Pharmaceutical products

Committed to putting our customers first

We are proud to be recognised in the industry for the excellent customer care and high level of service we provide. We are dedicated to helping our customers achieve optimum efficiency by providing rapid and effective technical assistance from our team of engineers.

WHAT MAKES US DIFFERENT

- › We provide customers with a single point of contact ensuring we offer continuity and ownership of an enquiry.
- › Our customer-centric reputation is strengthened by our investment in providing in-house expertise, repairs and spares and custom bracket design and production.
- › We offer a rapid response service for consumable orders, providing same or next day delivery as required.
- › We are committed to actively seeking customer feedback to continually improve and develop ICE products.

A closer look at CLARiTY™

Coder Operating System

CLARiTY™ ensures secure, streamlined management of data, minimising downtime and protecting brand integrity.

REDUCE...

- › **Rework** by eliminating coding errors.
- › **Recalls** by consistent coding with traceability.
- › **Risk** by delivering accurate legible codes.

- › Unique date calculation manager to configure offset dates, avoidance date rules and controlled concessions.
- › Windows TrueType fonts for flexible label design.
- › Intuitive high-resolution graphical user interface with icon based controls, WYSIWYG image display and colour touchscreen.
- › Multiple language functionality.
- › Limited operator intervention required minimises risk of errors with sell-by dates, traceability codes, product variety and country of origin.
- › Transfer of data and images via a USB port.

- › USB scanpoint feature allows job selection via barcode scanning with no operator intervention and no human error.

- › Master/slave to control multiple printers from a single screen.
- › Network capability for plant-wide solutions when used with CLARiNET® package coding network control software.
- › Allows precise synchronisation and integration with weighing systems.
- › The patented generic file structure of CLARiTY™ ensures future compatibility with your choice of coder technology.

- › Web browser to allow seamless OEM integration and remote diagnostics.
- › Real time view of the performance of all ICE printers in the factory.

Performance

Printer	Zodiac HS (53mm)	Zodiac HS LA (107mm)
Unique solid state ribbon drive - Intermittent and continuous modes	-	-
Printhead	53mm, 300dpi, 12dots/mm	107mm, 300dpi, 12dots/mm
Print area - Intermittent motion mode	53mm (W) x 75mm (L)	107mm (W) x 75mm (L)
Print area - Continuous motion mode	53mm (W) x 204.5mm (L)	107mm (W) x 200mm (L)
Ribbon width	20mm - 55mm	55mm - 110mm
Maximum ribbon length	1200 metres	700 metres
Print speed - Intermittent motion mode	50mm/sec - 800mm/sec*	50mm/sec - 700mm/sec*
Print speed - Continuous motion mode	0mm/sec - 1000mm/sec*	0mm/sec - 800mm/sec*
High throughput mode, standard by software	-	-
Nominal ribbon waste between successive prints	0.5mm	0.5mm

* Print speeds and throughput are resolution, substrate, application and set-up dependent

General

8.4" TFT SVGA (800 x 600) touch screen operator interface	On-board diagnostics
Full-colour LCD touch panel interface WYSIWYG print preview	On-board memory, compact flash and/or expansion card
Clutchless bi-directional ribbon drive	Off-line set up and parameter storage
Simple ribbon webbing	Multiple operator languages
3 levels of password protection	Job selection and database support as standard
Ribbon saving features - radial ribbon save, interleaved ribbon save, intermittent ribbon save	

Software

CLARISOFT® Image Design Software	Auto best before date calculation and concession management
Full downloadable font support for Windows TrueType (including multiple languages and Unicode support)	Scalable text including rotation, mirror and inverse printing
Fixed, variable and merged text fields	Flexible date/time formats
Link fields to databases	Real-time clock functions
Multiple graphic formats supported, any size up to maximum print area	Text blocks
Formats for shift coding	Auto increment/decrementing text, counters and barcodes
Field orientation 0°, 90°, 180° and 270°	Basic shape drawing
Mirror image printing, image rotation	User configurable drop-down list fields
Barcodes EAN 8, EAN 13, UPC-A, UPC-E, Code 39, EAN128, Code 128, ITF, RSS (including 2D composite codes)	128Mb message store memory

Connectivity

External inputs (fully software configurable)	3 x PNP inputs
External outputs	2 x relay outputs and 2 x PNP +24V outputs
RS232	Ethernet
Binary and ASCII comms protocols and Windows drivers	USB memory stick support
CLARINET® coder independent network management software	Host PC Mode (remote database) using CLARINET®
Master/slave unit - link up to four coders to a single controller and user interface	Server unit - fully integrate user interface into packaging machinery

Services

Air supply	6 Bar, 90psi, uncontaminated - 1.0ml/cycle (max.)
Power supply	90 - 264V
Operating temperature	5° - 40°
